STEAM & COOK at the same time

Cook up to 2 rice cup of white rice and grains by following the instructions on **page 4** to **8**.

- Place desired food in the provided steam tray, place the tray on the inner pot then securely set the lid on top.
- 2. Steam ingredients in the upper tray according to the timetable on page 11.
- 3. Once the suggested amount of time has passed, carefully remove the lid and check food for doneness.
- 4. If the food is finished steaming, remove the steam tray. Wear protective heat-resistant gloves to prevent injury as the steam tray will be hot.
- 5. Replace the lid and allow the cooking cycle to continue.
- 6. Once rice or grain is ready, the **COOK** switch will automatically flip up and the cooker will switch to **WARM**.
- 7. When you finish serving, turn the cooker off by unplugging the power cord.

Tips

- Delicate foods (e.g., leafy vegetables) might overcook if steamed for the entire cooking cycle.
- Dense foods (e.g., potatoes, corn, pumpkin, fish in foil) may not fully cook
 during the rice cycle. Cut into smaller pieces or reduce the quantity for even
 cooking. If needed, remove the rice and see page 11 for additional steaming.

Note

- Adding the steam tray limits cooking capacity in the inner pot, so only 2 rice cups of white rice can be cooked while steaming.
- Do not leave food in the cooker on WARM mode for more than 12 hours.

 intended to be used in contact with high temperatures. Use a long-handled
